

USB-C Pro Dock

UNIVERSAL COMPATIBILITY

Tired of checking if your dock is Thunderbolt 3 or USB-C even though they share the same connector? Wish that both protocols would work together regardless of what laptop you have? CalDigit has solved this challenge and developed the USB-C Pro Dock. A next-generation dock that will adapt to any USB-C (Type-C) laptop it connects to. No drivers. No Adapters. It just works!

USB-C & THUNDERBOLT 3 DOCK WITH DUAL 4K CONNECTIVITY

Whether your laptop is USB-C® or Thunderbolt™ 3, the USB-C Pro Dock re-writes the rule book on what a docking solution is capable of by supplying dual monitors, charging, and connectivity for both types of laptops. For the first time ever go from a Mac (Thunderbolt 3) to a Windows PC (USB-C or Thunderbolt 3) or even a USB-C Chromebook without any challenges. Charge your laptop, add devices and light up dual monitors, all with a single cable, regardless of your connectivity.

IPAD PRO

Take the iPad Pro to the next level of computing by connecting a 4K monitor, external drives and devices, SD card reader, audio, Gigabit Ethernet, keyboard, mouse (AssistiveTouch)* and even fast charging it, all with one cable.*

*External drives, devices, keyboard, mouse and SD card support are available in iPadOS. The iPad Pro does not support external dual monitors.

TURN YOUR TABLET OR SMARTPHONE INTO A WORKSTATION

Through the USB-C connector, Windows and Android tablet and even smartphone users are capable of gaining access to multiple devices, external display and turning their devices into workstations.**

**Full dock functionality depends on the tablet's and smartphone's capabilities. Please contact your device manufacturer to confirm external display, charging and USB device support.
